OBJECTIVE/PROFILE

I am seeking a position as a deckhand on a private or charter yacht. I have long term goals in this industry and can not wait to start my journey. I have just completed a number of maritime courses and hope to increase my knowledge within the industry in the future. I am eager to learn as much as I can. I enjoy teamwork and have had to work in vastly different teams and environments throughout my life. I have grown up teaching different watersports to friends and family on summer weekends on our small boat on inland waters and I hope to further my knowledge in this area. Going to boarding school has taught me valuable lessons including time management, how to live with different people in small spaces for extended periods of time, as well as how to follow a hierarchal system.

My strengths/Skills: I can teach watersports (wakeboarding/tubing/water skiing/ knee boarding), I have a basic understanding of basic handyman work (painting/small repairs, varnishing, etc.), I am punctual, I communicate effectively, I am positive by nature, I work well in teams, I am a quick learner.
